BUENOS AIRES

Buenos Aires, a complex, energetic, and seductive port city, which stretches south-to-north along the Rio de la Plata, has been the gateway to **Argentina** for centuries.

“*Porteños*”, as the multinational people of Buenos Aires are known, possess an elaborate and rich cultural identity. They value their European heritage highly—Italian, German, French and Spanish, and the lifestyle and architecture are markedly more European than any other in South America.

For all its diversity, the elusive spirit of Argentina as a country is present everywhere in Buenos Aires. The national dance, the **tango**, is perhaps the best expression of that spirit- practiced in dance halls, parks, open plazas and ballrooms, it is a dance of intimate separation and common rhythm, combining both an elegant reserve and an exuberant passion.
